

Task

- We can understand gender wise problems so it easy for develop our business.
- We are believe many religions but we understand each other's, and we respect others.
- We are not one province we are between 3 provinces so it easy for distribute our knowledge other people It can attractively people.
- We are attends many schools so we meet many people so it easy understand people.

Reflective journal

Description

I have Muslim friend . his name shafraz. Last year April 20 srilankan happened bomb blast at churches. That day after all Sinhala, Tamil and catholic persons see for Muslim peoples as a terrorist .so my friend I go to eat koththu.that day we eat koththu and came home .shafraz home near at my home. Transit some people attack us because shafraz wear his hat and kurtha.so they think I also Muslim. They told us you are not srilankan .srilankan only owners Sinhalese. I told him . I also Sinhala but srilankan not only Sinhala so they angry with me they attack us we try escape them .because they have 8 members. We have shafraz and me. We run as we can and hide and go after they are gone. That day we are very scare because they have knife because lot of them are fishmen's. We go to home and we don't say anything our parents and we do not go outside alone.

feelings

I felt so disappointed. I felt that I did a wrong thing talk with fishermen. I must go to home silent, so I felt really uncomfortable after see shafraz .I scared because they are Remember our face and attack us that moments happen normal time but that night that mens are drink some alcohol . day after we go to town with my friends I so that mens I so excited. But to be a try normal. They are not remember so I am feelings relax because that problem are go to big joint our parents.

Evaluation

In this moment I think not to go outside and stay home some days and I talk shafraz and say don't go outside because mens are angry not you but angry with your religion .He Understand me and not go to outside became calm environment srilankan

Analysis

I think we all are not same religion because our country have difference religions their culture are change but They are mens as like us because we can't say we born what religion . mother and father decide what religion we believe they told us what is good thing what is bad thing after our religious leaders say what is good or bad we ask It we think our knowledge because we born as men .we all have brain so we think not religion like men live one country .

Conclusion

Some people do work all citizen are involve that problem. Propagation religion is not good for future. What we believe religion . first, we think what happen side effects we propagation our religion so think brain and not heart

Action plan

It important to make to good decision as person. I motivated myself and how to handle that question. Shafraz say you are got decision write hide and go home we got to angry and fight what happen to us . I talk that moment is not good thing we must leave that moment what they told us sometime they told us right because propagation is not good things.
